RE: Permission to post ASME papers on web site

Dear Mr. Welch:

With regard to your request to post the ASME-copyrighted paper "A New Approach to Linear Filtering and Prediction Problems 2", by Kalman, R. Emil, from the Transaction of the ASME Journal of Basic Engineering 82 (Series D): pages 35-45, 1960, cited in your letter on the University of North Carolina web site, ASME will grant Greg Welch of the University of North Carolina (<http://www.cs.unc.edu/~welch/kalman/index.html>) permission to post this material for a **one-year period**. Upon expiration of this one-year period, should the University of North Carolina wish to continue this posting, you will need to submit an additional request. As per ASME's policy there must not be any outside charge or fee for distribution.

This permission requires full acknowledgment of ASME and the original sources of these papers. If possible, we request that each page of the paper indicate this acknowledgment and include "Copyright © xxxx [year of publication] by ASME." And, if possible, we request that the University of North Carolina at Chapel Hill point its visitors to [asme.org](http://www.asme.org) for further information on its publications.

In accordance with ASME policy, this permission is contingent upon payment of a fee of US\$20.00 (Invoice attached). This is solely charged to non-authors of the requested works. Please provide a check, payable to ASME, to the attention of M. Michalski, ASME Accounting, 22 Law Drive, Fairfield, NJ 07007, and indicate A/C# 104-36-0000-4303. Should you have any questions regarding payment form or transfer, please contact Ms. Michalski; F: 973-882-4924, E: michalskim@asme.org.

Please advise when this material is posted so that I may review. Please feel free to contact me with any questions or further discussion. Thank you for your interest in ASME publications.

Sincerely,

Beth Darchi
