Complete Campaign Control.

Donations.

You can't grow grass without seeds. A successful campaign is fueled not only by large donations, but also by the thousands of supporters who give just what they can. CampaignScaper allows donations of any amount through whichever means is most convenient, whether it is credit card, paypal, or a wad of non-consecutive twenties. CampaignScaper delivers the ultimate ROI.

Events.

Facilitating grassroots events has never been easier. CampaignScaper's Event Manager allows your campaign volunteers to organize events online. Your staff will be able to find groups of volunteers by area who are willing to host events to summon grassroots support for the campaign. If Howard Dean could do it, why can't you?

Features

Security - State of the art user management system grants access to different levels of data based on a white list you control.

Versatility - You are no longer tied down to the office. Your campaign is on the road, your information should be too. All you need is a web browser and you've got complete campaign control.

For more information visit CampaignScaper.com.

Constituents.

They know what they want, and the want a candidate that will stand up for them. With CampaignScaper's Constituent Management System you can stay up to the minute on the issues that matter most. Data collected throughout your campaign can be sorted, analyzed, and delivered to you in the most meaningful way possible. Volunteers can set up an account easily and let you know what is important to them and how they can help. Volunteers can be grouped and contacted by interest, location, event participation, or donation quantities. When you can give voters everything they want they will give you more than just a vote, they will give you an active campaign volunteer. Make it easy for them to participate. Use CampaignScaper.
