This homework is subject to the provisions of the UNC Honor Code; see http://instrument.unc.edu/. Your solution must be your own work. Your lab report is due in class on Thursday, September 10, 2015.

The assignment is to complete the SEED lab on public-key cryptography and PKI (except Task 5), available at http://www.cis.syr.edu/~wedu/seed/Labs_12.04/Crypto/Crypto_PublicKey/. Please use the Ubuntu 12.04 image (see http://www.cis.syr.edu/~wedu/seed/lab_env.html). To run this VM image, you can use VMWare Player or VirtualBox; see the instructions at the lab web pages.
