Concatenate
Concatenating (formally)

- Huh?
  - It means combining two or more things into one thing

- &  Anything can be concatenated
  - “awe” & “some” = “awesome”
  - Whitespace only matters inside quotes
    - “a”&“b” same as “a” & “b”
    - “a        ” & “b” NOT the same as “a” & “b”
CONCATENATE Function

- Also a function called concatenate
- Same thing as &
- Can use either
- Same as SUM or +
