Conditional in Excel
IF in Excel...

IF (logical_test, value_if_true, value_if_false)

- IF can choose between 2 options
- Keep branching until you get to a single answer
Simple IF Example...

• Is the number in the cell greater than seven?
  • =IF(A1>7,"Greater than 7","Less than 7")

• What about 7?
  >7
  <7
  7
