Centering

centering the TEXT
  text-align: center;

centering the BOX
  Need to tell it to treat as a block
  display: block;
  
  Must have a width (px or %)
  center using margin
  margin-left: auto;
  margin-right: auto;
Centering list items

- One of the areas with browser differences
- In some cases (Firefox), centering text centers the bullet
- In other cases (Chrome), centering text does not center the bullet
- Solution:
  
  list-style-position: inside;
  
  bullets INSIDE the list item’s formatting
