

Assignment 9

Assigned 22 March, 2024

Due 5 April 2024

Read:

Svinicki & McKeachie, Chapter 13 (in both 13th and 14th editions), “Student Problems and Problem Students”.

Watch:

Watch the PBS Nova episode *Picture a Scientist*. If you contribute to PBS, you should be able to watch it for free there. There is also a free version [here](#). (It takes several clicks to get there, starting with Get Full Access, then typing “University of North Carolina Chapel Hill”, and ending eventually with entering your onyen.)

Write

1. Assert that you have watched the video.
2. Prepare a case study suitable for a class discussion of **one** of the following situations that could arise in your class.
 - .. A student who, you suspect, may be mentally ill.
 - .. A student who smells really bad.
 - .. A student who dominates discussion and answers every question.
 - .. A student who you find extremely attractive and appears to feel the same toward you.
 - .. A visually impaired student who cannot see your carefully prepared slides.

Identify campus resources that you might call on to help.
